

March 17, 2026 - U.S. SEC, “Application of the Federal Securities Laws to Certain Types of Crypto Assets and Certain Transactions Involving Crypto Assets”. The interpretation is an effort to establish a clear federal regulatory framework for crypto assets

The Interpretation is the first step implementing the SEC’s rulemaking agenda related to crypto assets and the definition of a security subject to the SEC regulatory web and to assess how these developments affect their businesses, including which questions have been resolved, which uncertainties remain.
